

DIGITEACH

DIGITEACH Coordination meeting in Cyprus

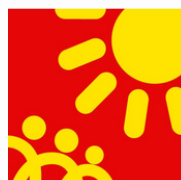

On November 8th and 9th, 2022, DIGITEACH consortium members gathered in Cyprus for the 2nd coordination meeting of the project.

The results of the online survey will be published soon on the project website and all the partners are at work to define the contents of the Open Educational Resources (OER) for teachers, with a special focus on secondary high school teachers with students with ADHD.

In early 2023, the materials will be ready for piloting!
